Note To Physician: With regard to planned power outages, Rio Grande Electric Cooperative (RGEC) will attempt to contact your patient requiring electrically-powered medical equipment in advance so that they can make arrangements for transport to another location, if necessary. However, because of the wide variety of circumstances under which (unplanned) power outages occur, RGEC cannot guarantee restoration time. If your patient has critically important medical equipment that requires electric power for operation, they should have a back-up source of power available at their residence.
